A complete guide to our comprehensive range of colostomy products for the one- and two-piece user

Validating Salts research
into healthy stoma skin

SALTS
HEALTHCARE

Excellence in stoma care

Confidence® has always been the ideal choice for one-piece users who want the comfort, convenience and safety of a closed pouch. But now, Salts' most popular pouch comes with a range of natural benefits.

CLOSED

NATURAL SHAPE

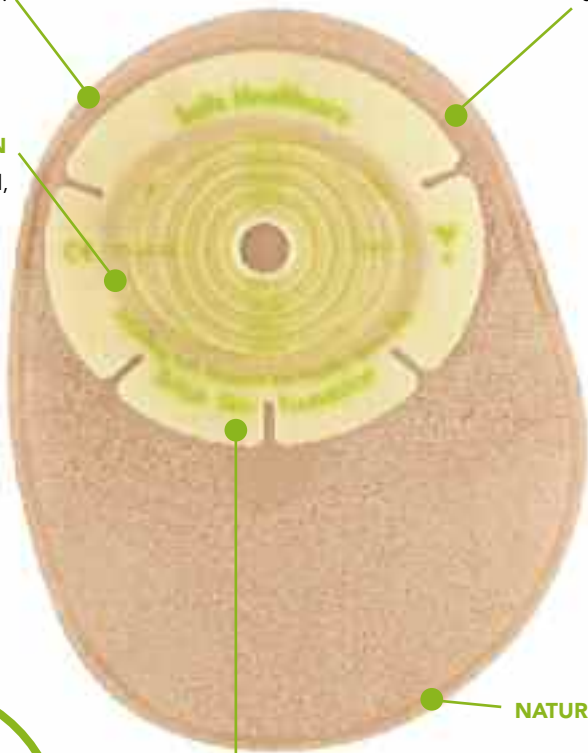

Unique Flexifit® wafer bends and flexes with your body.

NATURAL LOOK

Discreet, flesh-coloured pouch.

NATURAL PROTECTION

Skin-friendly hydrocolloid, research into which is validated by The British Skin Foundation.

NATURAL COMFORT

Soft edges for increased comfort.

NATURAL SOFTNESS

Infused with Aloe extracts for softer skin.

LARGE POUCHES

SIZE	STARTER HOLE	PRE-CUT	ORDER CODES		PACK SIZE
			Transparent	Trans/Overlap	
13mm	•	–	NLT13*	NL13*	30

STANDARD POUCHES

35mm	–	•	–	N35	30
38mm	–	•	–	N38	30
41mm	–	•	–	N41	30

MINI POUCHES

SIZE	STARTER HOLE	PRE-CUT	ORDER CODES		PACK SIZE
			Transparent	Trans/Overlap	
13mm	•	–	–	NM13*	30

* Starter hole wafers can be cut up to 70mm wide and 55mm deep.

One-piece pouches incorporate a new anatomical shape for extra comfort, a silky soft covering, oval-shaped wafer for extra security, quieter films for increased confidence, and a filter with an additional layer of film that has a less sticky surface to reduce 'pancaking'!

CLOSED

COMFORT

Positioned just below the waistband, for enhanced discretion and comfort, the filter is protected by an additional layer of film.

DISCREET

Anatomical shape for extra comfort and discretion. Reduced pouch material above the hydrocolloid wafer prevents it folding over.

WIDE CHOICE

Available in a wide range of sizes – either starter hole or pre-cut – with the choice of opaque, transparent, or transparent with overlapping, fabrics, for easy positioning.

SECURE

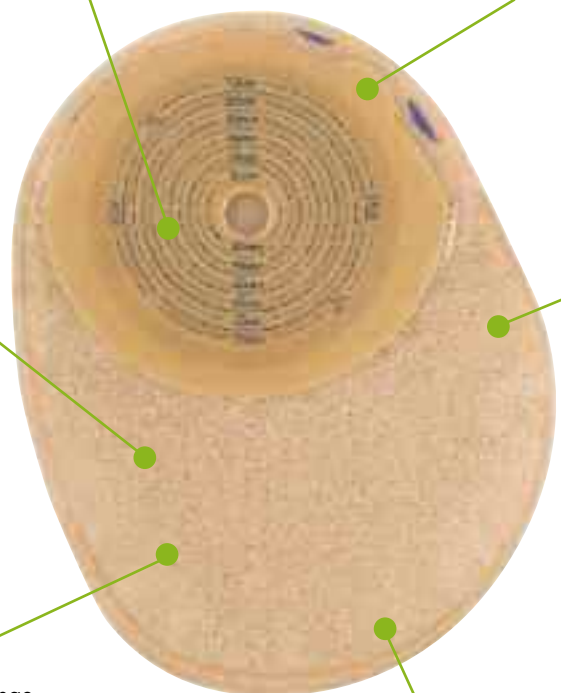

Thinner, oval-shaped wafer, for increased flexibility, comfort and security. Wafer can be cut up to 70mm and has a coloured thumb tab, for easy removal. Extra internal layer to reduce 'pancaking' which helps prevent leakage and increases security.

SOFT

Silky soft covering which is easier to dry and has a brighter and more appealing colour.

QUIET

Quieter inner layers, for reduced rustle and increased confidence.

TRANSPARENT

TRANSPARENT/OVERLAP

A closed, convex pouch with even more flexibility and softness. Confidence Convex Supersoft incorporates a soft, flexible wafer with a gentle profile – for increased comfort.

CLOSED

GREATER FLEXIBILITY

The wafer has an incredibly soft and flexible foam backing, producing a better fit over the contours of the skin, while retaining full and unrestricted movement.

SHALLOW PROFILE

New wafer with shallower profile, for extra comfort.

ADDED COMFORT

Softer, more flexible convex insert, for added comfort.

EXTRA SECURITY

Belt loops for extra security.

NEW SHAPE

New anatomical shape pouch.

SOFT

Soft beige cover, for extra comfort.

Incredibly soft and flexible wafer.

Note: this product is specifically designed for colostomists with flush or retracted stomas, or where the stoma is situated in skin folds; and should only be used after prior assessment by a stoma care specialist.

A very popular range of closed pouches for the one-piece user, incorporating a soft and comfortable beige material.

CLOSED

WIDE CHOICE

Available in a wide range of sizes, with the choice of opaque, or transparent with overlapping, fabrics.

DISCREET

Low-profile pouches with a soft cover that is neutral in colour to be discreet under the majority of clothing.

EXTRA COMFORT

A soft and comfortable cover, for when that little extra comfort is required.

SECURITY

A generous, diamond-shaped hydrocolloid wafer, for added security and peace of mind.

SKIN-FRIENDLY

A proven, non-allergenic, soft and flexible diamond-shaped hydrocolloid wafer for even the most sensitive skin.

Large oval wafer, for extra security.

Harmony[®] Duo

All the advantages of a one-piece system, such as an ultra slim profile and flexible wafer, with all the convenience of a two-piece system: its unique 'docking system' and skin-friendly flange makes pouch changes so much easier.

CLOSED

SOFT AND FLEXIBLE

Low-profile flanges are soft and flexible, and available in a choice of sizes and either standard or hydrocolloid surround.

STRONG

Strong yet repositionable adhesive between pouch and flange affords extra security and peace of mind.

SOFTER, LIGHTER POUCH

Lightweight fabric and beige colour makes it even more discreet when worn.

SLIM PROFILE

A two-piece system that is every bit as slim and discreet as a one-piece, so you can wear what you like, when you like.

SKIN FRIENDLY

Reduces skin trauma caused by frequent changes.

EASY APPLICATION

A locator on the wafer matches up with a notch on the pouch for simple, accurate positioning every time.

ANATOMICALLY SHAPED

For extra comfort and freedom of movement.

STOMA SOLUTIONS

The solution for any problem. Our easy-to-use range has been specifically developed to alleviate the problems faced by ostomists, to provide security, confidence and peace of mind. Please see the Stoma Solutions brochure for the full range of accessories.

SECUPLAST® HYDRO

Skin-friendly hydrocolloid strips to provide extra security around the edge of the flange.

PERI-PREP® SENSITIVE

Leakage and the trauma caused by the constant changing of a pouch can lead to sore skin. Peri-Prep Sensitive is specifically designed to leave a gentle protective film on the skin immediately around the stoma.

WIPEAWAY

WipeAway sachets are used to remove pouches and adhesive residue and to help keep the skin around the stoma healthy. The natural ingredients help to soothe skin trauma associated with adhesive removal, leaving a hint of fresh lavender.

FRESHAIRE

FreshAire is effective and easy to use. During pouch changes, FreshAire is simply sprayed once or twice into the air around the pouch.

SIMPLICITY® STOMA SUPPORT WEAR

Available in both black and white, our ladies' briefs and unisex boxer are made from a two-way stretch fabric that allows the body to move freely, while ribbing on the front provides a flush finish.

DERMACOL®

Dermacol is a unique stoma collar that provides a leakproof barrier around the base of your stoma, preventing output from coming into contact with the skin. Unlike any other product, the Dermacol stoma collar forms a physical barrier to prevent output from coming into contact with the delicate skin around your stoma, protecting you from discomfort and giving you extra peace of mind. It's suitable for use with all types of appliances.

Skin-friendly hydrocolloid

SECUPLAST® MOULDABLE SEALS®

New SecuPlast Mouldable Seals help prevent sore skin by reducing the leaks that are the main cause of it.

Simply mould SecuPlast Mouldable Seals to the exact size and shape of your stoma and the exact contours of your abdomen to create a customised, comfortable and leakproof seal.

- No need to warm
- Suitable for any make or style of pouch and all stoma types
- Very easy to mould and shape to fit; then place in position
- Very easy to rejoin if it breaks
- Easy to break into smaller pieces, if required
- Skin-friendly, with no sting, even on sore skin
- Customised comfort – SecuPlast Mouldable Seals keep the shape you create for secure and lasting protection from leaks
